Don't Let Security Problems Leave You Out in the Cold

Computer viruses and spyware are more than just annoying. They can leave you out in the cold by damaging your computer or compromising sensitive financial information. If you don't have time or technical expertise to stay on top of security issues, let SecureIT Plus from Egyptian do it for you. SecureIT Plus provides guaranteed fully automated computer protection for just $5.95 per month.

This affordable service is available for use for any computer that has an Internet connection. With SecureIT Plus, everything is handled for you:

- Fully automated protection and removal of viruses, spyware, and adware.

- Automated hard drive maintenance and optimization.

- Monthly email reporting.

- Free professional installation.

- Free technical support.

Don't get left out in the cold!

Don't Pass By This Password Reminder

You've heard it before, but we'll say it again. It's important to have strong passwords and change them regularly to help keep your accounts safe. Here are the basics:

- Don't use personal information. This includes names of people in your family, your address, or birthdays, since this information can be publicly available to hackers.

- Don't use real words. Password cracking tools can process every word in the dictionary until a match is found. Instead use uppercase and lowercase letters combined with special characters such as "&" or "#".

- Create longer passwords. The longer it is, the better. Try for at least 10 characters.

- Don't use the same password for multiple websites. If one website has a data breach and you've used that password elsewhere, it's easier for hackers to steal more information.

- Change your passwords. Get in the habit of changing them twice a year.
